Dear Future Fallbrook Golf Course Owner:

We know you're out there, taking a serious look at Fallbrook Golf Course, shaking the bushes and kicking the tires! With gorgeous trees, fabulous weather, and a community that will enthusiastically welcome and support you, this course is poised for a new beginning and we wish you the best of luck.

When neighbors in Gird Valley learned in January that Fallbrook Golf Course was in serious jeopardy of being lost forever, we quickly mobilized our time, energy and resources to form SaveFallbrookGolfCourse.com. Hundreds of people joined us and numerous [press reports](#) carried our message far and wide.

Nestled in beautiful Gird Valley, this golf course has been much loved by Fallbrook residents, golfers and non-golfers alike, for over 50 years. Unfortunately, over the last two years, the course lost much of its vitality, direction and appeal and customers drifted away.

SaveFallbrookGolfCourse.com's original purpose was to defend rural Gird Valley from proposals to convert the golf course to a housing development or to a fenced/closed area (mitigation land). Either of these options would result in the tragic loss of community [recreational open space](#).

After much [research](#) we learned that such options are virtually impossible. We are very relieved because we believe that, under new ownership, this golf course will be revitalized.

As we are turning a corner, with several experienced golf course operators interested in a purchase and restoration of the course, we offer our group's wholehearted support.

SaveFallbrookGolfCourse.com is now working to create a new future where the golf course, the restaurant and our neighborhood bar, are brought back to their former glory.

Additionally, we are exploring the establishment of a community non-profit. This tax exempt/public benefit organization would support junior and senior golf activities and preservation of the historic live oaks and other magnificent trees in Gird Valley.

Working together, Fallbrook Golf Course will be, once again, a Southern California gem.

Welcome to the neighborhood!

Sincerely,

The Steering Committee
